Contents Volume 37

Vol. 37, No. 1

Special Issue: Selected Papers presented at the Symposium on Hazardous Waste Treatment, Prague, 29 August–3 September 1993

Preface
F. Kaštánek ix

Waste reduction in the chemical industry: a two-level problem
P. Mizsey (Budapest, Hungary) 1

Intermedia transfer factors for modeling the environmental impact of air pollution from industrial sources
L.W. Creelman, V. Pešinová, Y. Cohen and A.M. Winer (Los Angeles, CA, USA) 15

Prognosis of the stability of arsenic in the biotop of the brown-coal dump
M. Kušnierová (Košice, Slovakia) 27

Solubility model for the pore solution of leached concrete containing solidified waste
R. Barna, P. Moszkowicz, J. Veron (Villeurbanne, France) and
M. Tirnoveanu (Timisoara, Romania) 33

Remediation of toxic particles from groundwater
H.E. Nuttall and R. Kale (Albuquerque, NM, USA) 41

Elimination of heavy metals from microbial cultures by chemical and biological leaching under decreased values of pH
F. Kaštánek, V. Bízek and M. Matějka (Prague, Czech Republic) 49

Purification of waste waters containing low concentrations of heavy metals
J. Horáček, L. Soukupová, M. Punčochár, J. Slezák, J. Drahoš (Prague, Czech Republic),
K. Yoshida and A. Tsutsumi (Tokyo, Japan) 69

Treatment of waste water for removing heavy metals by membrane distillation
P.P. Zolotarev, V.V. Ugrozov, I.B. Volkina and V.N. Nikulin (Moscow,
Russian Federation) 77

Clean process for the production of defluorinated dicalcium phosphate using phosphate rock
M. Giulietti (São Paulo, Brazil) 83

Electrochemical technology of fluorine removal from underground and waste waters
R.V. Drondina and I.V. Drako (Kishinev, Moldova) 91

Purifying organic contaminated mineral water with stripping and expansion flotation on model laboratory equipment
M. Penič and O. Vojko (Maribor, Slovenia) 101

Utilization of some water-soluble polymers as flocculants for treatment of sewage containing oil
M. Boneva, B. Bonev and P. Pipeva (Bourgas, Bulgaria) 107

Treatment of wool scouring wastewater for grease removal
H.M. Ang and P. Himawan (Perth, Australia) 117

Thermocatalytic treatment of hazardous industrial wastewaters
Z. Gorzka and M. Kaźmierczak (Łódź, Poland) 127

Treatment of chromic tannery wastes
Z. Kowalski (Gliwice, Poland) 137

Reduction of waste of tannery industry by recycling of dairy by-products
K. Kolomaznik, P. Sáha, A. Blaha, D. Janáčová (Zlín, Czech Republic) and D.G. Bailey (Philadelphia, PA, USA) 143

Removal of volatile substances from water
F. Vašák and Z. Brož (Prague, Czech Republic) 153

Composting sludges from municipal waste water treatment plants from two Slowenian towns
J. Šömen (Ptuj, Slovenia), M. Margetič, J. Valjavec and D. Vuk (Kranj, Slovenia) 165

Combustion of volatile organic compounds over monolithic catalysts
A. Musialik-Piotrowska and K. Syczewska (Wroclaw, Poland) 171

Fluidized bed incineration of sewage sludge: a strategy for the design of the incinerator and the future for incinerator ash utilization
J. Baeyens and F. Van Puyvelde (Heverlee, Belgium) 179

High temperature ammonia stripping and recovery from process liquid wastes
G. Saracco and G. Genon (Torino, Italy) 191

Regeneration of an activated carbon bed exhausted by industrial phenolic wastewater
A. Camporro, M.J. Camporro, J. Coca and H. Sastre (Oviedo, Spain) 207

Arrangement of reactor-heat regenerator for catalytic combustion of pollutants in air
K. German (Warsaw, Poland), A. Gawdzik (Opole, Poland) and T. Machej (Kraków, Poland) 215

Influence of furnace combustion conditions on NO_x emission from lignite flames
Ź. Kostić, B. Repić, D. Dakić and L. Jovanović (Belgrade, Yugoslavia) 225

Speciation of selected heavy metals in soils and plant availability
A. Barona, F. Romero and C. Elejalde (Bilbao, Spain) 233

Vol. 37, No. 2

Catalytic incineration of organic vapors containing N, N-dimethylformamide
W.-T. Tsai, Y.-H. Chang and C.-Y. Chang (Taipei, Taiwan) 241

The oxidation of pyrite
H. Nakamura, Y. Hara (Kitakyushu-Shi, Japan) and S. Sato (Nobeoka-Shi, Japan) 253

A study of some factors that affect the impact sensitiveness of liquids determined using the BAM Fallhammer apparatus
R.K. Wharton and J.A. Harding (Derbyshire, UK) 265

Long-term stability of superplasticized monoliths of a solidified electroplating sludge
G.C.C. Yang and C.-F. Chang (Taiwan, ROC) 277

Reactive chemicals hazard evaluation: Impact of thermal characteristics of transportation/storage vessels
H.D. Ferguson, D.I. Townsend, T.C. Hofelich and P.M. Russell (Midland, MI, USA) 285

Movement of chemical warfare agent simulants through porous media
R.A. Jenkins, M.V. Buchanan, R. Merriweather, R.H. Ilgner, T.M. Gayle and A.P. Watson (Oak Ridge, TN, USA) 303

Modelling the effects of obstacles on the dispersion of denser-than-air gases
S. Andronopoulos (Ispra, Italy), J.G. Bartzis (Attiki, Greece), J. Würtz (Ispra, Italy) and D. Asimakopoulos (Athens, Greece) 327

The timing of emergency decisions: Modelling decisions by community officials during chemical accidents
G.O. Rogers (College Station, TX, USA) 353

Book Reviews 375
Announcement 393
Erratum 395

Vol. 37, No. 3

Special Issue: Intermedia Transport and Transformation of Chemical Pollutants

The effects of nonlinear sorption on the diffusion of volatile organic compounds from air-dry soils: A theoretical study
D.R. Shonnard and R.L. Bell (Davis, CA, USA) 397

Investigation of normal hexane and nitrogen adsorption onto soil constituents and constituent mixtures
J.F. Campagnolo and A. Akgerman (College Station, TX, USA) 415

Loss of methyl bromide to the atmosphere during soil fumigation
D.D. Reible (Baton Rouge, LA, USA) 431

Chemical volatilization from the soil matrix: Transport through the air and water phases
J. Grifoll (Tarragona, Catalonia, Spain) and Y. Cohen (Los Angeles, CA, USA) 445

A model for enhanced aeration of streams by motor vessels with application to the Seine river
L. Thibodeaux, M. Poulin and S. Even (Fontainebleau, France) 459

Fate and transport of ammonia spilled from a barge
S. Dharmavaram, J.N. Tilton and R.J. Gardner (Newark, DE, USA) 475

Comparative study of multimedia modeling for dynamic partitioning of fossil fuels-related pollutants
C.R. Hsieh and J.R. Ouimette (Richmond, CA, USA) 489

Multimedia partitioning of particle-bound organics
Y. Cohen and R.E. Clay (Los Angeles, CA, USA) 507

UV-B exposure and atmospheric ozone: evaluation of radiative flux to changes in ambient ozone levels
K.C. Crist, G.R. Carmichael, K. John (Iowa City, IA, USA) 527
